Professor Koo is very enthusiastic about the content but most times I thought he was just reading off the slides.

#### Comments Regarding Course Content

I personally find internal audit very dry, so I didn't enjoy this class much. It has a lot of memorization of things you really don't need to memorize. A lot of the first half of the class was stuff you can look up on google. The second half was much more interesting/helpful where we talked about internal audit practices to prevent fraud within the company.
