#### Comments Regarding Professor

I did not like this professor initially because of his teaching style. I was always stressed out going to class because he likes to call on a random student each day and even if you don't know the answer, he will make you come up with an answer and ask you for your logic. At the end however I realized he was actually a really great professor and I'm really happy I had a class with him

#### Comments Regarding Course Content

Its a lot of material. You need to stay on top of your readings and really focus. Would not recommended pairing this class with other hard classes as well
