#### Comments Regarding Professor

Professor Scott was one of my favorite professors throughout college. He is so nice and will do anything to help his students succeed. He takes the time to get to know everyone and still stops to talk whenever I see him. I personally really liked his teaching style and thought he was very thorough; though we covered a lot of material, he pulled out the most important parts that would be covered on the exams so we knew exactly what to study before each.

#### Comments Regarding Course Content

I thought it was a good introduction to supply chain and touched upon each of the topics that we would be taking classes on in the future so we had a solid base before entering each of those. Each exam was non-cumulative.
